INTRODUCTION

First of all, HUNG DAT MECHANICAL COMPANY LIMITED would like to send thanks and gratitude to all customers who have trusted and cooperated to create conditions for HUNG DAT to develop and have a strong attachment to you for a long time. HUNG DAT commits and definitely always completes products in the best way, with the best quality, on schedule of mechanical processing and heat treatment for customers. Contributing to the quality of heat treatment industry in particular and mechanics in general.

MECHANICAL PROCESSING

01. Mechanical processing
02. Lathe – Cutting - Planning
03. Wire cutting
04. CNC
05. Mold processing

HEAT TREATMENT

06. Vacuum heat treatment
07. Nitriding heat treatment
08. Carburizing heat treatment
09. Volumetric heat treatment
10. Soft annealing heat treatment

The company commits to providing customers with the best products and services. Bringing satisfaction to our customers is our top goal.

The company would like to thank all customers who have worked with Hung Dat Mechanical Co., Ltd.

Best regards !

WORKING PROCESS

With a team of professional sales staff, specialized engineers and technicians with extensive experience in the field of mechanical and heat treatment, Hung Dat always puts the TRUST on top, does not cheat for immediate profit.

The company's business motto is: "The benefit of customers is to ensure the existence and successful development of our company"

HUNG DAT'S SERVICES

MECHANICAL PROCESSING

- Precision mechanical processing
- Lathe, cutting processing
- Pressing processing
- Cutting Molybdenum Wire
- CNC
- Machining of machine parts
- Advanced processing

HEAT TREATMENT

- Vacuum heat treatment
- Nitriding heat treatment
- Carburizing heat treatment
- Volumetric heat treatment
- Soft annealing heat treatment

Hung Dat Mechanical Co., Ltd. has not hesitated to invest in modern machinery and equipment and a team of professional technicians to serve you in the field of mechanical processing and heat treatment in Dong Nai and neighboring provinces

MACHINERY

SODICK CNC WIRE CUTTING-OFF MACHINE,

Processing holes in punch press dies, molds for pressing metal, etc.
Electrical Discharge Machining for EDM wire cutting-off machine
Cutting complex contours: gear body contour, cam contour, spline contour cutting, etc.
Cutting special 3D faces such as helical gear surface, turbine blade surface, cone blocks, spirals blocks, parabolic blocks, ellipses blocks, etc.

DK7745 WIRE CUTTING-OFF MACHINE

Be suitable for machining high-precision, high-rigidity, high-roughness molds, complex morphological components and semi-molds. Be widely used in industry such as gauges, meters, electrical appliances, mechanics, automobiles, light industry, etc.

CNC MIKADO V55 MILLING MACHINE

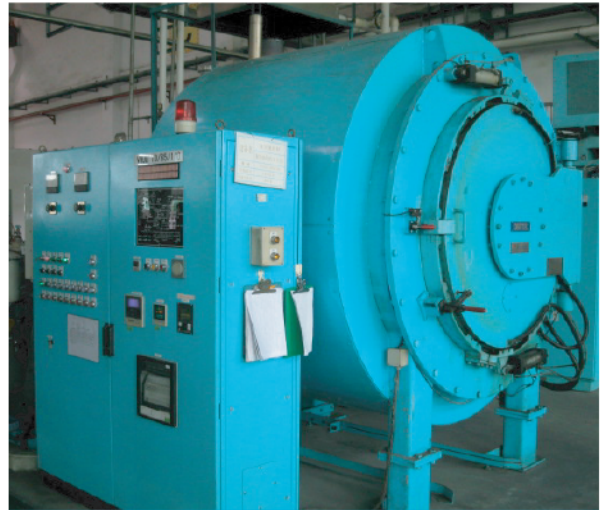

Place of Origin: Japan
Operating system: Pro 3/ Fanuc
Version: 509 X 1016 mm
Journey X, Y, Z: 900 - 500 - 450 mm
Speed: 20.000 r.p.m; ATC:15; BT 40

CNC OKUMA HOWA MILLING MACHINE

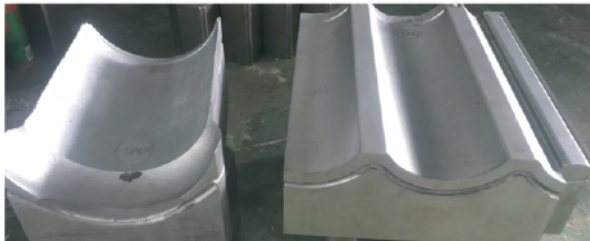

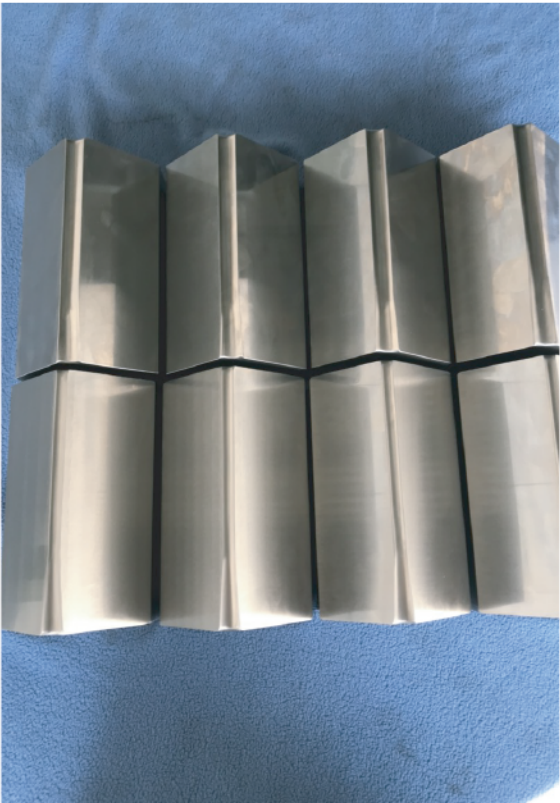

Knife no. 16 | X-560 Y-410 Z-460
Spindle speed: (Spindle speed): 8000 r.p.m
Table size: 600x900 mm

HEAT TREATMENT EQUIPMENT

SOME PICTURES OF PRODUCTS

HEAT TREATMENT PRODUCTS

In addition to mechanical processing services, HUNG DAT also provides services in the field of heat treatment by methods with the best quality and commits to satisfying customers

HUNG DAT HEAT TREATMENT

Typical applications include gears, crankshafts, camshafts, valve parts, screw extruders, die-casting tools, die forgings, die extrusions, weapon components, injectors and plastic-molding tools.

REASONS FOR CHOOSING HUNG DAT

Creative Ideas

With many years of experience in the field of mechanical and heat treatment, we have the most optimal solutions for our customers.

Featured Brand

Accurate and sufficient information on the Internet confirms the brand and reliability from partners and customers

Timely and Quickly

Our team is always ready to handle your requests quickly and accurately

Devoted and Considerate

The spirit of love and devotion of our team will surely satisfy you

Development path

Hung Dat constantly improves the speciality and service quality to become the leading unit in mechanical engineering and heat treatment industry

Mission

Customer satisfaction is the top goal that HUNG DAT is always aiming for

CUSTOMER REVIEWS

Mr. Son - Technical Department

"We are very satisfied with the technical team of Hung Dat company. We are also very satisfied with the quality and standard of processed products"

Mr. Tam - Project Supervisor

"The company's professional and skilled technical team advises and provides reasonable solutions to solve the problem, ensuring the progress of our project"

Hung Dat Mechanical Co., Ltd would like to thank the trust of customers.

Hung Dat commits to bringing the best products and services at the most reasonable cost to customers!

CUSTOMERS AND PARTNERS

More than 1000+ projects of enterprises and samples of products processed on the spot have been done by HUNG DAT MECHANICAL
